Daisy-Chaining: Expand Your Workspace with a Single Cable

Create an efficient, clutter-free workspace with Philips Monitors featuring Daisy Chaining—smart connectivity that lets you link multiple monitors using a single Thunderbolt™ or DisplayPort connection. This simplifies setup and enhances productivity by powering a multi-display setup through just one connection to your device.

Key Features:

- **DisplayPort MST (Multi-Stream Transport):** Multiple monitors to be connected in a daisy-chain configuration using a single DisplayPort or Thunderbolt output
- **USB-C + DP-Out/Thunderbolt In + Thunderbolt out:** Simplifies cable management and keeps your setup clean
- **All-in-one USB-C connectivity:** Dock your laptop, charge it, and expand your workspace.
- **Flexible Compatibility:** Works with both USB-C and Thunderbolt™ devices
- **Optional Display Sync:** Allows screens to stay in sync when connected in a daisy chain (via Smart Link Sync)
- **Smart Link Sync Function:** Instant colour temperature and brightness synchronization between daisy chained monitors via OSD settings.

Key benefits

One Cable, Multiple Screens:

Drive two or more* monitors from a single port

Declutter Your Desk:

Clean, efficient cable management

Perfect for Modern Laptops:

Ideal for ultraportables with limited I/O

Quick Setup:

Easy plug-and-play for fast deployment

Boosted Productivity:

Enjoy panoramic views and enhanced multitasking

Optimized for Pro Docking Monitors:

Seamlessly integrates with Philips Thunderbolt-enabled displays**

Models: 27E3U7903; 27B2U6903; 34B2U6603CH; 40B1U6903CH; 49B2U6903CH

*The maximum number of connectible monitors may vary per model

**Smart Link Sync is not present in thunderbolt models
