RECYCLING PROGRAMME**

Canon

CANON CARTRIDGE RECYCLING PROGRAMME

Did you know? Canon launched the industry's first closed-loop cartridge recycling programme back in 1990, and it's been growing ever since.

In 2025, as a result of cartridge returns, 19.16 tonnes of materials were recycled, contributing to 58.73 tonnes recycled since 2021*. Here's the best part, 100% of every returned cartridge is reused or recycled.

Nothing goes to landfill.

Everything goes back into the loop.

Join us in making a real difference one cartridge at a time.

RECYCLE YOUR INK CARTRIDGES

Canon

How to recycle your genuine Canon inkjet cartridges

- 1) If you haven't received a returns envelope with your order, you can print the freepost label available on our website and stick it on your parcel
- 2) Place your used acceptable genuine Canon cartridges inside the parcel (we accept over 276 Canon inks)
- 3) Place the parcel in the post

It's that easy - and it's free!

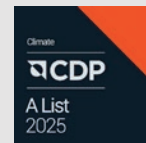

Scan the QR code to download your freepost label to return & recycle your genuine Canon inkjet cartridges.

Recognition
