

NEW SCANNERS TO HELP ELEVATE OFFICE PRODUCTIVITY

THE NEW CANON IMAGEFORMULA DR-C350 AND DR-C340 ARE SUPER COMPACT A4 DOCUMENT SCANNERS DESIGNED FOR MAXIMISING DOCUMENT WORKFLOW EFFICIENCIES IN SMALL WORKSPACES

- **Save desk space** with compact, narrow design; perfect for branch offices, retail spaces and reception areas.
- **Versatile and flexible** document workflows with robust feeding mechanism that ensures best in class reliability for scanning various types of documents.
- **Easy operation** with an intuitive display and easy-to-follow icons including one touch scanning with preconfigured jobs – accelerating and simplifying scanning tasks.
- **Maximise productivity** with duplex scanning speeds of up to 100ipm and ability to stack up to 100 sheets in the document feeder.
- **High-quality scanning** with various advanced image processing tools to automatically produce crisp, clear images from all types of documents, even those with faint writing or patterned backgrounds.
- **Included Software** that offers additional value with automatic file naming, batch separation and OCR / barcode processing, and file saving to multiple formats.
- **Reduce environmental impact** using this highly durable, EPEAT Gold certified device with low power consumption and reduced parts usage.

WORK SMARTER NOT HARDER

INTRODUCING THE imageFORMULA DOCUMENT SCANNER RANGE FROM CANON.

Highly versatile and reliable document digitisation solutions help your customers convert paper-based information into electronic images for more efficient, secure and cost-effective document processing, sharing, and archiving. Our scanners range from portable devices, A4 desktop & networked to high volume production devices assisting your customers on the go, in the office or in shared workspaces.

Capture OnTouch

SCAN, PROCESS, CONVERT AND SHARE

AN INTUITIVE AND RELIABLE SCANNING SOFTWARE THAT CAN TRANSFORM THE WAY YOU WORK AND TAKE PRODUCTIVITY AND EFFICIENCY TO ANOTHER LEVEL.

CaptureOnTouch is a scan application that works with Canon imageFORMULA Document Scanners through their TWAIN driver. With a user friendly and easy operation, it offers a simple and intuitive scanning experience. The multiple functionalities allow to scan to various destinations and formats and to create searchable and editable files.

- **Easy Operation:** an easy-to-use software with intuitive icon-based operation
- **Versatile file saving & sending options:** can create multiple file formats and easily scan to multiple destinations
- **Powerful OCR processing:** easily transform and convert documents into editable and searchable files
- **Flexible connectivity & integration:** made possible with optional plug-in SDK connector

SCANNER MANAGEMENT TOOL

The Scanner Management Tool centrally oversees multiple DR scanners, allowing you to monitor scanner activity and information through a network, as well as distribute software to the scanners. This is available to download from our Canon web page.

¹ A4 landscape
² Only work with USB connection. Wi-Fi and LAN connection are not supported

³ CaptureOnTouch Lite Web is a browser-based application that does not need any software or driver installation. It is accessible via QR code from smart devices without the need to download any app, or from PC and Mac by typing the IP address in the browser bar

SUPPORT A SUSTAINABLE FUTURE WITH imageFORMULA
Let's build a better future, together.
According to our Kyosei philosophy of living and working together for the common good, we are working with our customers, colleagues, partners and stakeholders to build a brighter and more sustainable future.

A4 & A3 FLATBED SCANNER
Scan bound books, journals and fragile media by adding the A4 Flatbed Scanner Unit 102 or the A3 Flatbed Scanner Unit 202. Connected by USB, these flatbed scanners work seamlessly together with the Canon ADF scanners.

CANON DEVELOPER PROGRAMME
Provides independent software vendors and system integrators quick and easy access to a range of SDKs, API information and other technical resources to assist in development of applications and integration with Canon's office imaging technologies.
